

# Re-Elect Ed Gibbons

## **Transportation Update**

*Northeast Edmonton*

*October 2010*

### **Gorman**

Gorman will be a transit-oriented, medium to high-density residential community with both LRT and Park and Ride services:

- Park and Ride will be in place within 5 years pending land purchase.
- The Gorman LRT will be constructed within 5 - 7 years with the potential of an extension to the Alberta Hospital area within 10 - 15 years.

### **Anthony Henday Drive**

The most recent map of the detours proposed for Anthony Henday construction is [available here](#). We will provide detour updates as they become available.

I have delayed the closure of 167 Avenue proposed by the provincial government P3 contractor, ensuring the road remains open until September (2011), in order to secure alternative routes and minimize the inconvenience to motorists.

### **Fort Road**

As construction continues, I have ensured funding is available in the 2011 Capital Budget for the widening and upgrading of Fort Road from Century Casino to 137 Avenue.

### **Yellowhead Trail**

My priority projects include the development of plans to facilitate important new upgrades to the intersection of Yellowhead Trail and 66th Street.

### **Evergreen Park**

The latest map outlining new parking sign locations within the park is [available here](#).

Thank you.

### **Ed Gibbons**

Edmonton City Councillor

Ward 3 \*

*\* New Ward 4 as of October 18, 2010*
